Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/684,583	Applicant(s) GLENN ET AL.
	Examiner DARYL POPE	Art Unit 2612

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 19 December 2008.
 2a) This action is FINAL. 2b) This action is non-final.

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:***Claim Rejections - 35 USC § 103***

2. Claims 1-5,10,13-15,21,26-29, and 35-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kail, IV(Kail) in view of Rogers et al(Rogers), Wilson et al(Wilson), Lauber et al(Lauber), and Examiner's statement of Official Notice for the reasons of record as discussed in the previous Office Action.

Furthermore, with regards to applicant's amendments to the claims, Kail clearly suggests detection of environmental conditions at a remote site since Kail suggests implementation of sensors for detecting various environmental conditions. Furthermore, upon incorporation of different types of sensors into the system of Kail, it would have been obvious that raw data based on the calibration information would have been processed by the system, since one of ordinary skill would have recognized the advantage of incorporating sensors that provide raw data into the system, since raw data would have provided highly accurate sensor information in the system. Furthermore, any data collected by the sensors would have been processed by the microprocessor(22) and central monitor(14) of the system. As well, wirelessly downloaded updates would have been received by the first transceiver, and provided to the microprocessor(22) upon programming/reprogramming functions being performed in Kail.

REMARKS:

Response to Arguments

3. Applicant's arguments filed 12/19/2008 have been fully considered but they are not persuasive.

Applicant is arguing that the prior art of record does not teach the claimed subject matter, in particular, the processing of raw data based on at least the calibration information. However, Kail teaches that data from sensors would have been processed by the microprocessor(22) and as well at the remote central monitoring(14). Therefore, raw data from the sensors would have been processed in the system. Roger was combined with Kail to compensate for other deficiencies in Kail. In view of this, applicant's arguments are not deemed persuasive.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 2612

the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DARYL POPE whose telephone number is (571)272-2959. The examiner can normally be reached on 9-5.
